

REMOTE CONTROL VACUUM TRUCK HOSE REEL

- . Huge visible billboard for advertising your company & services
- . Clean hose trays; less odor - higher company profile
- . Happier - safer - more productive operator

Mounts on any pumper truck

- Steel or aluminum tank;
- Dump or non dumping tank;
- No welding required on tank or frame;
- Reel swings away to dump tank or to swing back door open;
- Capacity - 200 feet of 3 inch vacuum hose.

Plug and play installation

- NO hydraulic valves, pumps, lines or PTO required;
- Electro-hydraulic operation- reel in and out - swing open and closed;
- Wireless remote control - 200 ft range;
- Only 2 wires to connect;
- Bolts directly on truck frame - designed to be retro-fit.

Increased safety

- Reduced compensation and back type injuries;
- Reduced operator fatigue, "manhandling" hoses eliminated;
- Reduced operator contact with mud and hazardous material;
- Reduced spills and leaks at customer locations;
- Reduced accidents with back-up camera option.

Job set up time in seconds – not minutes

- Remote control hose deployment;
- Reel unwinds hose to operator at walking speed;
- No operator fatigue / back issues / lifting / dragging hoses;
- Power swing offers 270 degrees of direct access to job site in seconds.

50 SECONDS TO DEPLOY HOSE

- 5... Unlock reel from transport mode;
- 5... Power swing to optimum angle;
- 30... Grab hose, press "unwind" on remote;
[Start walking to job site]
- 10... Couple hose to truck vacuum fitting.

55 SECONDS STOW HOSE
